Social Responsibility

Shearforce takes its role in the community very seriously. We believe that our business success carries the social responsibility to give something back to society.

All employees are encouraged to take part in a wide variety of charitable activities, whether fund raising or more direct participation.

Some of the projects we are recently involved in include:

- London Metropolitan Police/ Child Safety Campaign Foundation's Child Safety Education campaign;
- Rotary Club of Barking & Dagenham's Children's Day Out.

The culture of our commitment to the community helps individual development and includes volunteer work as well as free legal advice or pro bono work.

In fact our Managing Director, who is also the Incoming Honourable Chairman of the Barking and Dagenham Rotary Club for 2010, is involved in many similar projects in and around the deprived neighbourhoods of London.
